GIANTS BREAK INTO WINNING STREAK FRIDAY

The score: R. H. E.
Yankees 0 0 4 0 0 0 1 0—5 8 0
Giants .0 0 4 0 0 0 8 1 x—13 20 0
Batteries—Yankees—Shawkey, Quinn, Collins, Rogers, Schang and Devorner.
Giants—Toney, Barnes and Snyder.
Umpires—Quigley at the plate; Chill at first base; Riegler at second base; Morarity at third base.

Polo Grounds, N. Y., Oct. 7.—The Giants won the third game of the world series with a vengeance here this afternoon. With blood in their eyes they picked out their mightiest swat sticks, and buried four Yankee hurlers under an avalanche of hits and runs that resulted in a 13-5 score.

The break in the game came in the last half of the seventh inning after each team had scored four runs in the third, and Shawkey and Toney had been lifted from their hillock by their respective managers, Quinn being substituted for Shawkey and Barnes for Toney. The substitutes pitched good ball until the lucky seventh.

Getting to the offerings of Quinn in this frame the Giant batsman loosened all of the pent-up ire and batting proclivities they have stored up for three days, and chased tallies across the plate so fast they stumbled on each other. Quinn rudely jerked, and Collins substituted. The new hurler did not have a thing but his glove and his nerve, and the warlike Giants put him on the skids in the same inning before they were calmed down from their run getting. When the inning was closed, the National league representatives had eight runs.

In the eighth, one run was scored by both teams, which ended the scoring.

Fans were treated to the most thrilling exhibition of batting in the history of the annual championship clashes, in the third stanza, when each team turned up with four runs amid the deafening clamor of the 36,000 or more fans who were packed in the oval.

The Yanks, having their first time at bat in the inning, solved the offerings of the erstwhile impregnable Toney early in the session. A cluster of base hits, sent the big fellow scurrying for the showers. Barnes, who replaced him, managed to subdue the rushing Yankees after four athletes had romped across the rhomboid.

The real thrill was saved for the latter half of the inning, however. With the big percentage of bugs who represent their supporters shouting for a comeback, and with the words of Jawn McGraw, wild with anxiety, ringing in their ears, the Giant artillery went into their half of the inning with fire in their eye. They chased Shawkey from the hillock amidst a shower of safeties, and before the veteran had been relieved by the excited Huggins, and the Irishman Quinn, had been thrust into the breach, four tallies had been hung on the big scoreboard.

The four runs scored by each in the same inning, followed by another succession of cyphers, offered one of the most spectacular breaks in a world series baseball game that has ever been witnessed. When the smoke of the bloody third had cleared away two new pitchers were delivering them up for the opposing batsmen.

Dayton, Oct. 7.—The next annual convention of the Grand Lodge, Royal Arch Masons will be held at Springfield, the lodging having selected that city at the closing session yesterday afternoon. The newly elected officers are Frank L. Berg of Newark, grand high priest; B. Frank Perry, Jefferson, O., Deputy Grand High Priest; John P. Kuhns, Columbus, Grand King; Robert E. Lee, Akron, Grand Scribe; Warren J. Baker, Toledo, Grand Captain of Host; Irving Stafford, Cleveland, Grand Principal Sojourner; Mont. C. Hambright, Springfield, Grand Royal Arch Captain; Carl W. Sperling, Oak Harbor, Grand Master of Third Veil; William H. Tatem, Cincinnati, Grand Master of Third Veil, E. E. Everett, Lima, Grand Master First Veil.

Wilden E. Joseph, Columbus, grand treasurer; Edwin Hagenbuch, Urbana, Grand Secretary; and John C. Augustine, Salem, Grand Guard, retain their present offices. Rev. Frank R. Mitchell, Urbana, Grand Chaplain, it is said, will likely retain his office.

DEB'S SIDETRACKED
Washington, Oct. 7.—The question of parole or pardon for Eugene V. Debs has been "laid aside for awhile" by the department of justice, Daugherty, who said that such recommendation as he had prepared would be changed "in phrasology" before going to the president.

Mr. Daugherty went on to say, with a laugh, "You see, we are capable of forgetting the Debs case some times." A fusillade of questions failed to elicit further information as to probable action by the department.

COMPROMISE ON TAX BILL REACHED; BOTH PARTIES ARE SATISFIED

Republicans Once More In Temporary Harmony; Democrats Will Not Oppose Decision of G. O. P. Members, It is Believed.

Washington, Oct. 7.—The taxation skies which have been so overcast as to threaten the solidarity of the Republican majority, were apparently clearing rapidly today. The Republicans are once more in temporary harmony, and from Senator Simmons, the ranking Democratic member of the senate

finance committee today came indication that the Democrats will not oppose the Republican compromise on the bill.

The Democrats are not going to oppose seriously the bill it was said, because several of the features of the new program were first proposed and sponsored by the Democrats.

The Democratic members of the senate finance committee urged originally the fixing of an income surtax maximum at fifty per cent which the Republicans have not accepted, Simmons stated, and the retention of the capital stock tax which the Republicans also decided upon in framing their substitute for the pending bill.

If the latter is torn to pieces and rewritten, as the Republican members have agreed to do, it is not unlikely that it will receive a substantial number of Democratic votes, Simmons suggested, but not before Democratic spokesmen have again twitted the Republican side upon agreeing upon a substitute embodying changes in the present tax law which the Democrats claim they originated.

Republican members of the senate finance committee with the aid of treasury experts, are to recast the pending bill so as to make it conform with the compromise plan accepted by them.

It is figured that in tearing the bill apart there will be a shifting of approximately \$260,000,000 but that the total of \$3,324,000,000 intended to be raised by the measure originally, will remain about the same.

It is also proposed to adopt a graduated corporation income tax of 10 per cent on \$50,000 or less and 15 per cent on amounts in excess of \$50,000. A division of opinion still prevails among Republican senators as to whether the \$2,000 exemption allowed for corporations ought to be eliminated because of its effect on smaller corporations, but it is believed that it will be stricken out.

Damaging testimony against Marian was brought out late yesterday when Mrs. Erminia Colavito, alleged "poison queen" herself under indictment as a principal in the case testified for the state that the girl had agreed to give Salvatore Cala and his accomplice the signal that all was clear, and the scene set for the murder.

Mrs. Colavito was cautioned by the court that she need not testify as her own liberty was at stake.

"I will testify," she replied and then detailed the hiring of the two men by Mrs. Kaber through her and events leading up to the shooting in which, she declared, Marian played a prominent part.

High praise for work of America in Russia given

Russian Official Pays Tribute to Efforts of This Country.

Moscow, Oct. 6.—via Berlin, Oct. 7.—High praise for the United States and the manner in which the Americans came to the rescue of starving Russia was sounded here today by M. Kamenoff, of the soviet.

M. Kamenoff's remarks were made in a speech opening the convention of the all-Russian central executive committee.

After charging that various attempts had been made by sources hostile to the soviet to take advantage of Russia's plight, M. Kamenoff added:

"The humanity and efficiency of America deserves tribute. Although America is farthest away from us I believe she is nearest to Russia's heart in our hour of need. Without waiting for political discussions America came to us with economic forces and immediately materialized plans for our assistance. Already 150,000 Russians are being fed and by December, 1,000,000 will be getting food.

The American relief work in Russia is in charge of Col. William N. Haskell, of New York, who is now in Moscow.

Evacuation of Nicomedia By The Greek Residents

War is still raging in Asia Minor between the Greeks and Turks under Kemal. The above illustration shows Greek soldiers resting along the river bank at Ghalavan. Fearing the wrath of the Turks, the Greek population of Nicomedia has evacuated the city. The photograph below shows Greek ships lying in the harbor, while the Greeks are seeking refuge aboard.

Nicomedia is the ancient name given to the city of Ismid at the head of the Gulf of Ismid. It is the capital of Bithynia Ismid. It is the capital of Bithynia and about fifty-six miles from Constantinople.

Bankers Are Optimistic Of Restored Prosperity

"Blue Funk" That Prevailed in Commercial World Thing Of Past—Confidence Rapidly Being Restored In U. S.

Los Angeles, Oct. 7.—The "blue funk" that prevailed in the commercial world eight or nine months ago, is now a thing of the past.

There has been a decided change in the mental attitude of the nation's leaders who keep the wheels of business humming.

Confidence is rapidly being restored in every section of the United States. The armies of unemployed are gradually being put back to work and before long more idle toilers will have returned to factory and bench.

Money is going to be more plentiful. Interest rates will be lower. Liberty bonds are going to rise in value from now on.

The above observations constitute a consensus of the 3,500 bankers who have been in attendance at the 47th annual convention of the American Bankers Association, which concluded its sessions today.

Francis H. Sisson, vice president of the Guaranty Trust company of New York and John G. Lonsdale, president of the National Bank of Commerce in St. Louis, two of the most widely known of American financiers analyzed the trend of events and the opinion of the convention for the International News Service.

SUIT IS BROUGHT BY SCHOOL BOARD AGAINST DECISION

Claim Judge Woods Is Without Authority To Enforce Writ.

Columbus, Oct. 7.—Claiming Judge C. H. Wood, Morrow county is without authority to enforce a writ of mandamus which he recently issued, in a tax payers suit, ordering the Mt. Gilead board of education to issue school repair bonds, the board has filed suit in the state supreme court asking that Judge Woods be enjoined from enforcing the writ.

After the state department of workshops and factories inspection condemned the high school and grade school buildings at Mt. Gilead and ordered repairs, the voters at Mt. Gilead voted proposals to issue bonds totalling \$690,000.

Without a vote of the people, Judge Wood ordered the board to issue bonds equalling a tax rate of two mills.

CHICAGO MAN LEADS IN CHESS MATCH FRIDAY

Cleveland, Oct. 7.—Herman Hahlbohm, of Chicago, is in the lead with three straight wins in the championship tournament of the western chess association now in progress at the city club here. However, the present champion, Edward Lasker, also of Chicago, has two wins to his credit, with a won position in the third game of the series, which has been adjourned.

S. H. Shapiro, of Cleveland has the best score of any Ohio entrant, having won one game, lost one and drew one. Hugo Hoffman of Cleveland, city champion, has won one and lost two, while E. E. Stearns, former state champion, has gone down to three straight defeats.

DEBT QUESTION WILL COME OUT AT ARMS MEET

Question of Payment of Huge Sum by Europe Will Come Out.

IS NOT WANTED
President Desirous of Keeping Matter Out of Conference.

Washington, Oct. 7.—Despite the known opposition of President Harding and Secretary of State Hughes the belief is growing in Washington that it will be impossible to keep out of the forthcoming armament conference the question of Europe's paying to the United States the \$10,000,000,000 borrowed during the war.

President Harding and Secretary Hughes do not want to see the debt question injected into the conference. They believe that the conference has more chance of success if it is confined to the primary purposes for which it was called—limitation of armament and settlement of controversies in the Pacific and far east. They do not want to see the conference stray off the main paths, fearing that if it does there is danger of too much discussion of many war ills and too little definite accomplishment.

There is a growing group in congress, however, who want Europe to settle with the United States, or at least state when settlement may be expected.

Senators and representatives casting about for new methods of raising revenue without further increasing the tremendous tax burden of the people, are beginning to cast longing glances at the war debt as the best means of accomplishing this.

At present the interest payments on the huge debt which amount to approximately \$500,000,000 a year are not being met. Great Britain has paid some installments of interest but they have been small in comparison to the amount owed. The other nations have paid nothing.

Indications that the debt situation is coming up for an airing in congress soon—perhaps on the very eve of the conference meeting here—were given today by Senator McKellar, Democrat, Tennessee. A number of influential Republicans are known to hold similar views.

"Our allies," said McKellar, "might just as well make up their minds right now that eventually they have got to pay us what they owe us, and that they have got to begin interest payments before long. The American people are going to demand it."

"There are just two ways of reducing taxation. One is to reduce the expenses of the government, the other is to collect the interest that is owed us by our allies, amounting roughly to \$500,000,000 a year."

Collection of this amount would decrease the tax burden of the American people by one seventh right now. It is the biggest single consideration in connection with the taxation bill. It is time to settle this question."

The so-called Penrose bill, giving the secretary of the treasury wide discretionary power to arrange a settlement of the loans, is still held up, with little chance of its passage.

STUBBORN BLAZE DOES MUCH DAMAGE

New York, Oct. 7.—A stubborn blaze in a five story Broadway building facing City Hall Park knocked out fifteen firemen, three so seriously that they could not return to duty and did \$100,000 damage, early today.

Firemen Charles Hennessy and John Bronfender, were almost drowned in three feet of water in the cellar when they were overcome by smoke. They were rescued by other firemen, six of whom were overcome but were able to go back to duty.

Broadway traffic was held up for hours. City Hall Park was jammed with spectators by the reports that the federal building and the Woolworth tower, both close at hand were on fire.

DRASTIC CHANGE IN WEATHER IN EAST PROBABLE

Washington, Oct. 7.—A drastic change in the weather conditions in New York tomorrow may prevent the playing of the fourth game of the world's series if predictions of the chief forecaster of the weather bureau here materialize.

The outlook is for rain within the next 24 hours accompanied by considerably colder weather and high winds, the forecaster predicted.

Why The First Aid To Good Health Is Pure Blood

Waste Products in the Blood Cause Many Forms of Rheumatism, Skin Disorders, and A Lowered Vitality.

Many People Do Not Understand Nature's Warning.

When you have that feeling of fatigue; when you lack the energy you need for the day's duties and pleasure; when you are troubled with pimples, blackheads, bad boils, sores or some other skin eruption; or when you have rheumatic pains in the muscles and joints, don't wait until you collapse in a state of nervous prostration, or until in your weakened condition you contract some serious disease, but start at once to get the waste products out of your blood.

Nature has certain peculiar ways to warn us. Fortunate, indeed, is the person who knows her danger signals. Thousands and thousands of men and women during the past 50 years have relied on S. S. S. to clear their blood of waste products. S. S. S. will

improve the quality of your blood by relieving you of the waste products which cause impoverished blood and its allied troubles—skin disorders, rheumatism and a lowered vitality.

The same qualities which give S. S. S. its beneficial effect in clearing your blood of waste products make it extremely desirable for keeping your blood in good condition.

S. S. S. may be had at any drug store. Write Chief Medical Director, Swift Specific Co., 715 S. S. S. Laboratory, Atlanta, Ga., and let him help you regain your health and strength. Give him a full description of your case. He is helping people every day (without charge). Ask him to send you his illustrated booklet, "Facts About the Blood"—free. S. S. S. is sold at all drug stores.

you will be made welcome amongst us.

BOMB FAILS; CAP SAVES 3 LIVES

Portland, Ind., Oct. 7.—An attempt to kill Robert Stein, his wife and his son was made yesterday at their home

in Bryant. A bomb, containing three half-pound sticks of dynamite, around which was wrapped a ten-foot fuse, was placed under the window of the bed room.

The fact that care was not taken to clinch the cap over the fuse after it had been set saved the family and others in the neighborhood.

The fuse burned its entire length and if it had not slipped out of the cap the explosive would have been set off. Stn. brought the dynamite to this city and reported the matter to James Badders Sheriff of Jay County who is investigating.

The White House and your house

We guarantee ARCOLA to warm any small house as perfectly as our larger heating plants warm mansions, clubs, cathedrals, and even the White House itself

WE guarantee that ARCOLA has these five advantages which no small-home heating equipment has ever offered:

- 1—Connected with American Radiators it will fill every room of a small house, upstairs and down, with healthful hot-water warmth.
- 2—It will save the waste and labor of a half dozen old-fashioned stuffy stoves.
- 3—It will reduce your fuel consumption room for room at least one-third of the amount consumed by stoves or hot-air furnaces as proved by the experience of thousands of ARCOLA owners.
- 4—Connected with the kitchen tank it will provide an abundance of hot water for washing and bathing.
- 5—It can be installed easily and quickly without the slightest disturbance to the family.

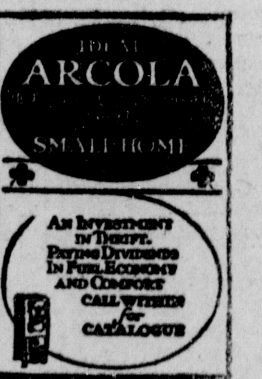

This is no ordinary guarantee. It is offered by the largest manufacturer of heating equipment in the world.

The perfection of ARCOLA, after years of experiment in our research laboratories, means that now, for the first time, the small home can be as perfectly warmed as our larger heating outfits warm clubs, mansions, and even the White House itself.

And the cost of ARCOLA with American Radiators complete is—think of it—no more to install than a stove for each room.

Make up your mind to save a third of what you have been spending for fuel. See ARCOLA in the store of your Heating Contractor today.

The red and yellow card at the right is the sign of a Heating or Sanitary Engineer (formerly called Steam-fitter or Plumber) who can show you ARCOLA. Look for it in his window. It will pay you to consult him twice a year as you do your Doctor or Dentist. To have him examine and report on your heating and plumbing costs little. It may save you a very great deal.

BEAUTIFUL DOUBLE WEDDING SERVICE IN OSBORN

A beautiful double wedding service was solemnized, Thursday morning, in Osborn, when Miss Mary E. LaTour and Miss Helen Dorothy LaTour, were united in marriage with Mr. George Saunders, of Indianapolis, and Mr. Ray Dobbins of Troy, Ohio. The ceremony was performed at the Osborn Lutheran Church, by the Rev. Harvey Croell.

The brides entered the Church by the center aisle, on either side of their father. Both wore attractive suits of tricotine. The bridegrooms met them at the altar.

During the service, Miss Marguerite Humma, of Dayton, cousin of the brides, sang "I love You Truly, and O Promise me."

A number of friends, of the LaTour family, from New Carlisle, where they formerly resided, witnessed the ceremony.

CHARMING LUNCHEON GIVEN AT ELK'S CLUB.

The parlors of the Elk's Club, was the scene of another charming afternoon party, when Miss Katherine McCurran entertained eighteen young women, honoring Miss Mildred Hall, the bride-elect of Mr. Arthur Netherton.

Five hundred was enjoyed by the guests during the forepart of the afternoon. Miss Ethel Netherton was awarded the prize, as the highest score holder. Miss Hallisay served a lovely guest prize.

A two course luncheon was served following cards. The guest favors were dainty white baskets filled with nuts.

The Misses Helen and Elsie Kennedy entertained a company of Miss Hallisay's friends, at a theater party and luncheon in Dayton, Friday afternoon.

DIES TWO WEEKS AFTER HIS WIFE

Just two weeks after the death of his wife, William Clinton Wright, passed away at his home at 624 West Second Street Thursday afternoon at 4:50 o'clock.

Mr. Wright had suffered a stroke of paralysis last July, and had been in failing health since that time. Last Tuesday he suffered another stroke which resulted in his death, Thursday.

He was born in Spring Valley, September 8, 1841, being in his eightieth year at the time of his death. Practically all of his life had been spent in this vicinity.

Mr. Wright is survived by two children, Mrs. John Simson and Albert Wright, both of this city. One sister, Mrs. Thomas Lickliter, of Greenville, and two brothers, Leander and George Wright, both of Greenville, also survive. Mr. Wright served in the Civil war with Company I, 31st Regiment, O. V. I. He was a member of the Hawker Reformed Church.

Funeral services will be held at the late home, Monday afternoon, at two o'clock. Burial will be made at Woodland cemetery.

SERBIA WILL CALL CLASSES TO COLORS

Paris, Oct. 7.—A Serbian war council at Belgrade has decided to call several military classes to the colors, according to a Belgrade dispatch to L'Information today. The mobilization is evidently aimed at Hungary.

Roumania and Czechoslovakia are expected to take similar military measures in view of the possibility of allied intervention in Austro-Hungarian territorial disputes, the dispatch added.

BUSINESS SERVICE TO HUMANITY SAYS ROTARIAN SPEAKER

Speaking on "The Spirit of Rotary," before the delegates to the Rotary meeting in Dayton at the home of S. S. Kings, in Oakwood, Thursday evening, James Heron, New York, declared that business is nothing more than service to humanity and that the "golden rule around the earth would follow, if thinking sincere business and professional men would assert their leadership.

Stressing the point of service, the speaker declared that any man could sell to acquaintances and associates any proposition or article that had merit as a component part and that had behind it a honest determination. He pointed out, also, that a man must put heart in his business, for after all such an act was merely merging into complete harmony and bliss the ideas of universal brotherhood. He further said that Rotary typified manhood's genuine loyalty to an ideal—the emotions and sentiments which were the moving forces in life and which brought about human understanding.

Mr. Heron's speech was delivered at a meeting around huge campfires on the lawn of the King home. Prior to the address stereopticon slides of current cartoons were shown, followed by moving pictures of the logging industry, a comic film and another showing the work done among crippled children at the Barney Community center.

Rotarians at the meeting voted unanimously to hold the conference of Ohio Rotarians March 22 and 23 in Dayton, and it will be held in the N. C. R. school house. Conference members at the meeting favored the proposal of the International committee to redistrict the United States. If the plan is carried out, the state of Ohio, which is now the tenth district, will be divided into two districts, the fourteenth and fifteenth.

The dividing line will fall just a little north of Columbus and extend across the state, making a north Ohio district and a south Ohio district.

DAUGHTER OF LATE WILLIAM MEANS DIES

Word has been received in this city of the death of Mrs. Pattie Means McElroy, daughter of the late William Means, of Yellow Springs, former mayor of Cincinnati, who passed away Tuesday at Battle Creek, Michigan, from heart disease.

SHOW PROVES TO BE INNOVATION

New York, Oct. 7.—Feminine members of the congregation of the mission of the Holy Redeemer of Inwood, who did not take part in the parish fashion show at the church last night had plenty of topics for conversation today—and so did the men. It was an innovation in religion. The displays ranged all the way from silk pajamas to abbreviated evening gowns and the models were curiously described by the masculine onlookers as real peaches. There was a dance after the show, the whole affair moving with the zip of a musical comedy.

TINY YACHT ON WAY TO TAHITI

New York, Oct. 7.—The Spee-jacks, the tiny yacht on which Captain Albert Y. Gowen, Chicago capitalist, and his wife, with a party of eight, set sail on a voyage to the south sea islands, is today on its way to Tahiti, according to a cable received by W. G. Woods, of the Consolidated Shipbuilding Company from Captain Gowen.

"The Spee-jacks left Panama Sept. 30. Expect to arrive at Tahiti Oct. 28. All are well," the cable said.

According to Woods, Captain Gowen did not intend to go to San Francisco and was unable to account for reports from that city to the effect that the Spee-jacks was overdue. He scouted reports that the vessel may have been wrecked.

ANTIOCH COLLEGE OFFICIAL ADDRESSES ROTARIANS FRIDAY

Horace Gardner, of the Industrial Department of Antioch College, was the principal speaker on the Friday program, of the regular meeting of the Rotary Club.

Mr. Gardner is connected with the personnel and administrative work of the department, which determines the ability of each of the pupils as an individual, and endeavors to find the position for the pupil in the line of work for which he is best fitted. The co-operative employment plan is judged to be one of the most practical features of Antioch college, and Mr. Gardner's talk upon the work of the department was well received by the members of the club.

MUSICAL COMEDY AT LIBERTY GOOD

Xenians who have seen "Chuckles of 1921" now playing at the Liberty Theater, in Dayton, have pronounced the attraction as equal to any musical comedy show in Dayton in recent years.

The theater recently opened under the management of Lee and J. J. Schubert, who, in the performance which includes its stand in Dayton Saturday evening, have set a pace for other attractions. Bobby Clark, comedian kept the audience in roars of laughter by his constant wit.

DINNER STORIES

Mr. Hindleton appeared at his neighbor's door one evening in a towering rage and uttering fierce threats against his neighbor's dog, Pongo.

Vainly the neighbor tried to explain that Pongo was only a puppy. "It belongs to Johnny," he said, "and it would break his heart if anything happened to it. I think," hopefully, "that its manners will improve."

"Manners!" repeated Hindleton. "I'm not complaining of its manners, but its nature. After it had jumped all over me it bit the back of my leg."

"It is as far as it can reach," broke in Johnny, in a wounded tone. "You don't expect a little pup like that to bite a big man like you on the neck, do you?"

Priscilla Dean tells of a little girl who was lost in a bargain sale rush at the Los Angeles department store. The child had become separated from her mother and was screaming lustily.

"Why didn't you hang on to your mother's skirt in such a crowd?" "Me—couldn't reach it!" bawled the youngster.

"What's the matter?" cried Mr. Jones when Bobby came running into the house in tears, dragging his little tin sword behind him and rubbing the seat of his trousers.

"I thought you were having such a good tin playing soldier," said his mother.

"We were," sobbed Bobby, "and I was Sherman, and papa heard me."

VITAMINE IN YEAST MAKES YOU HEALTHY

LARGE AUDIENCE HEARS RECITAL ON THURSDAY EVENING

Probably a number of people who attended the recital given Thursday night by Miss Elizabeth Spencer and Mr. Emil Bertl at the Opera House were at first puzzled and disappointed when they discovered a phonograph cabinet occupying the center of the stage.

They hardly were reassured when Mr. Bertl appeared on the stage and announced that Miss Spencer had been delayed and, rather than disappoint the audience, a re-creation, he called it, of Miss Spencer, would be played on the phonograph. Their suspicions were confirmed. They were to hear only a phonograph. Miss Spencer's golden notes, emanating from the grille of the New Edison soared over the auditorium in all their beauty. Suddenly they heard another voice or rather the same voice, coming from behind the scenes. Miss Spencer had arrived and was singing in union with her recreated self. She continued singing while walking toward the machine. The effect of the two voices, of the same exquisite quality, coming from two different places, was a new sensation and brought all under its magic spell. Miss Spencer reached the side of the New Edison and, during the remainder of the song, paused from time to time, apparently at random and permitted her re-created performance to be heard alone. This gave an opportunity to compare one with the other, and it is no more than just to state that there was not the slightest shade of difference between her re-created voice and original voice.

In the course of the evening similar tests were made by Mr. Emil Bertl with the same results.

Miss Spencer and her pianist, Mr. Bertl came to Xenia, Thursday, by airplane, the air trip being Miss Spencer's first flying trip. The trip was made from Dayton and the party went from here to Springfield where they appear in concert Friday night. They have been traveling through Tennessee, Kentucky and West Virginia and after covering Ohio will return to their homes in New Jersey. The concert here was heard by a crowd that packed the Opera House and many stood up during the performance.

CITY OFFICIAL SAYS THAT HE HAS BEEN PREJUDICED

Makes Significant Statement Regarding His Opinion of Medicine But He Found That Nerv-Worth Was Different When It Gave Desired Results.

"I have always been prejudiced against medicine, but I am now of different opinion. For Nerv-Worth is more than a medicine. It's a miracle," said C. W. Whitmer, 210 Hill St., Xenia, Ohio. And he goes on, "I was completely run down and nervous, and I couldn't sleep. I would toss and turn most of the night. Had gas and belched quite some time after eating. I have taken one bottle of Nerv-Worth and been helped marvelously. I have not enjoyed sleep in six months. I do now. I can't recommend it too highly, for I feel like a different man."

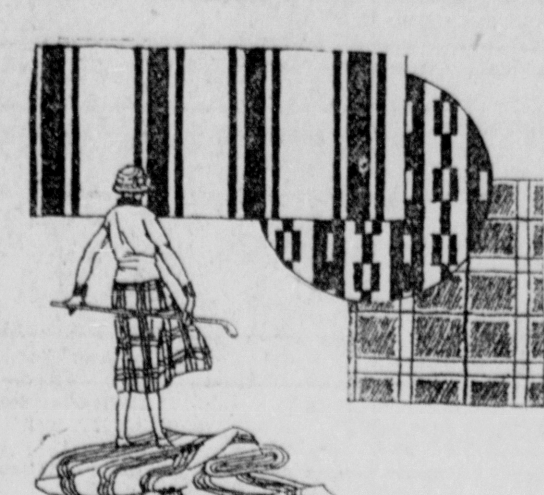

Mr. Whitmer is one of Xenia's highly respected citizens and held the office of Director of Public Service in this city for four terms. A statement from such a man is more than convincing proof.

Nerv-Worth has proved a miracle in millions of other cases, just as it has in this case. It acts in a sensible way to bring about the desired results because it is one medicine that acts jointly for the benefit of stomach and nervous system. It aids the digestive system neutralizes excess poisonous acids, drives out impurities, stops gas forming, and at the same time it does this it gives nerve force, sound restful sleep, and tones and invigorates the system throughout. If you suffer from ill health, do not hesitate to start at once on Nerv-Worth, for it will do for you what it has done for millions of others in all parts of the country. Take a bottle home and use it according to the directions, and if you are not satisfied that it is helping you your money will be refunded.

Sold on a money-back guarantee by Sayre & Hemphill and all leading druggists everywhere. Price \$1.00 per bottle.

EAT LESS MEAT IF BACK HURTS

Take a Glass of Salts to flush Kidneys if Bladder bothers you—Drink lots of water

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation. The moment your back hurts or if kidneys aren't acting right or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders. Jad Salts cannot injure anyone; makes a delightful effervescent lithia water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

HARDING WANTS THE SENATE TO PUSH LEGISLATION AND SUGGESTS PROGRAM.

President Harding refuses to be bluffed into abandonment of the Administration legislative program. He is not terrified by threats of Republican malcontents and Democratic partisans to heckle the conference for the limitation of armament.

Without undertaking to dictate the course of Congress, Mr. Harding has given his approval to a program which contemplates an unremitting drive straight ahead for enactment of essential legislation.

As outlined by certain Republican leaders following their conferences with the President, the program is:

Passage of the Panama Canal Tolls Bill on October 10, with the distinct understanding it is to be held up in the House until after the Limitation of Armament Conference.

Ratification of the German, Austrian and Hungarian peace treaties by October 21.

Passage of a very much amended Revenue Bill, which will carry out the party pledges for repeal of the excess profits and higher personal income taxes.

In spite of House opposition, the tendency is toward adoption of the Smoot plan for a production tax calculated to yield approximately \$1,000,000,000 in revenue to make up the losses through income and profits-tax changes.

Consideration of the conference report on the Sterling Anti-Beer Bill. Disposition of the Beer Bill will be followed by consideration of the railroad-financing legislation. That, it is believed, would consume from two to four weeks and would be the business before the Senate during the preliminary session of the disarmament conference.

The Administration desires to put an end to all talk that the Tariff-Revision Bill is to be dropped. The measure will come before the Senate early in 1922. Thus far there is no disposition to allow it to die.

Senators New, of Indiana; Moses, of New Hampshire; Dillingham, of Vermont, and McLean, of Connecticut, were among the Republicans who were reported to have been won over to the Smoot plan for a manufacturers' tax.

GENERAL LEONARD WOOD, IN JAPAN, URGES AMITY WITH IT AND THE UNITED STATES.

The cordiality of the relations between Japan and the United States must grow as the years go on, for thereupon depends in a large measure the peace of the Orient."

That was the keynote of the address of General Leonard Wood at the luncheon in his honor given by General Yamanashi, Minister of War, Monday in Tokio, and attended by the highest officers of the Japanese Army. General Wood said:

"We are your close neighbors in the Philippines and we hope to build up extensive trade relations between the islands and Japan. We want only the best relations with our friends across the Pacific. We desire to build up our commercial relations under conditions of free and friendly competition."

General Wood proposed the health of General Yamanashi and his brother officers, "beside whom we fought in the World War." General Yamanashi, in introducing General Wood, hailed him as "America's foremost military genius," and expressed the hope that the visit and General Wood's knowledge of Japan would be factors for the making of peace in the Orient.

General Wood arrived in Tokio Friday and was feted as the guest of the Japanese War Office until October 5, when he was given an imperial audience. He was to sail from Kobe October 7 on an American cruiser direct for Manila, to take the reins of the Philippines Government.

General Wood told newspapermen he had found evidence of remarkable commercial development in the Philippines during his tour of the islands, but he would not comment on the fitness of the Filipinos for self-rule.

A SON OF TROUBLE.

The cables say this will be a busy week for Lloyd George. If he has had anything other than busy weeks since he formed his Coalition Ministry back there in one of the blackest of the many black crises of the war, they have not been recorded.

Nevertheless, it is this week that he and his Cabinet take up such matters as Ireland, the arms parley and the growing and increasing troubles of England's unemployed. Lloyd George spent his vacation talking to worried Mayors of England's cities who were worrying about the unemployed. When they left him at leisure he managed to handle enough official business by wire to keep the telegraph office busy twenty-four hours a day. Between times he received reports so numerous and voluminous that the couriers formed an endless procession.

Consider the troubles of the little Welshman. The Moplah in India, a Mahdi in the Sudan, a lama in Tibet, an unreconstructed burgher on the Veldt, a laborite in Manchester, a Sinn Feiner in Dublin—they all have the power coupled with the inclination to annoy and irritate the most troubled man in the world.

Lloyd George comes close to being Old Man Trouble's favorite son. When it isn't Ireland it is India and Egypt. When it isn't the coal miners quitting work it is a matter of 5,000,000 Englishmen out of work, demanding work with winter coming on.

Still he clings to power. It is the nature of man, be he a Welshman, a Scot, a Yankee, a son of Gaul or Rome, or a Hot-tentot of the bush. Lloyd George will quit when the Coalition breaks, when his enemies rise up and overwhelm him, when he can no longer shift, whirl and maneuver.

His troubles may be as the sands of the Channel, but it is something to sit in the conning tower of the British Empire and pull the levers. He will quit when he must.

IF WE CAN'T WIN WITHOUT THAT WE'D BETTER THROW DOWN OUR HAND.

1901--Twenty Years Ago--1921

The lodge of Elks initiated two candidates into the mysteries of the order, last night, and an enjoyable social session followed.

Captain L. H. Whiteman left last night for Cleveland where he will attend the meeting of the Grand Lodge of Masons, serving as a delegate from the lodge in this city.

Propose International Credit Scheme For World

Plan to Bring Help to War-torn Nations Suggested at the Bankers' Convention at Los Angeles, California.

Los Angeles, Cal., Oct. 4.—An international credit scheme designed to bring substantial help to war-torn nations, revive the productive power of much of Europe and restore normal overseas trade, thereby contributing to starting the wheels of many American industries now standing idle or working only part time, was outlined today to delegates to the American Bankers Association convention here.

An explanation of the scheme, which is known as the Ter Meulen Plan, was given by Sir D. Drummond Fraser, K. B. E., of the Manchester and Liverpool district bank, one of England's foremost financiers and economists.

In discussing the scheme in his address Sir Drummond said:

"It is designed to enable war-stricken nations who possess approved national securities to finance essential imports, that is, goods which stimulate the productivity of the country by giving them the power, through the bond, to command the confidence which will attract the necessary credit."

"The scheme proposes the formation of an international organization for the provision of guarantees, which on the one hand will protect the autonomy of the borrowing countries, and, on the other hand will offer adequate security for the lenders."

At the election of officers, scheduled for late today, it was expected that John S. Drum of San Francisco, president, would become member of the executive committee.

A TWO MINUTE MANICURE

Business girls and housewives who are very busy often write complaining of the bad appearance of their nails and say that they have not any time to go to a professional manicurist, and not the time to take care of the nails properly at home. If you will learn how you can keep your nails in beautiful condition by spending exactly two minutes every day in looking after them. And you do not need a great deal of skill.

If you have neglected the nails you had better start with a thorough manicure for this two minute a day treatment is to keep the nails in good condition.

The best time for the two minute manicure is immediately after your bath or after you have washed your hands with hot water and soap. The nails are easily cleansed then and the cuticle is soft.

As soon as you have dried the nails clean under them with the point of a file, then take an orangewood stick with a tiny bit of cotton wrapped around the end and go along the edges of the nail carefully, pushing back the skin.

Be particular along the sides of the nail to press the skin back gently and firmly since the good appearance of the fingers depends so much upon the smoothness of the cuticle here. If the nails are stained or discolored dip the

orangewood stick first in either undiluted lemonjuice or peroxide. This will bleach at the same time.

Next take a piece of emery board and go over the nail, quickly filing each one into shape. The day's growth is scarcely perceptible; you do not have to file the nail shorter, you merely give it a fresh clean edge.

Anxious Buddy—As you are only 16 years of age, you will be in better proportion after a few more years of growth. There is nothing unusual about a girl of your age having some over-development, but it generally corrects itself, given time for the rest of the body to catch up with it.

E. H. B.—The origin of blackheads is usually an abnormal condition of the pores, which are being overworked to throw off waste from the system. This coarsens them and as they are generally on the most exposed part of the face, they catch soil, which combined with the oil in the skin forms an impact. Blackheads do not cause pimples, but they frequently have the same cause, which is internal derangement first—the skin is trying to eliminate waste from the system, which cannot be completely handled through the other organs. For the eyes, try a weak salt water douche each day, using the eye cup, but if the condition does not improve quickly, consult an oculist.

Styles BY LENORE

Long wide box pleats are very possible as used in this youthful frock of broadcloth, in a beguiling shade of raspberry called by the French "framboise." Both in the

front and in the back of the bodice the pleats are permitted to divide and disclose an underbody of dull blue and silvery embroidery, which makes its appearance as well where

INSPECTOR WAS MUCH WORRIED

Although He Bought Medicine Constantly for Wife She Failed to Improve.

"I wouldn't take all the money in the universe for the good Tanlac has done my wife," said John C. Goddard of 533 Talbot Ave., Akron, Ohio, inspector for the Goodyear Tire and Rubber Co.

"For two years I was worried about her condition and also had to spend a large part of my salary each month on medicines and treatments, which did her no good. I don't believe anybody ever had indigestion any worse than she did at times she had such long smothering spells it looked like she would never get her breath again. She could hardly drag herself around the house and she was too weak to do her housework."

"I certainly never got so much good out of a little money as I did for what Tanlac cost me. It has made her a well and happy woman and brought the sunshine back to our home. She has a wonderful appetite, has gained eleven pounds in weight and is the very picture of health."

Tanlac is sold in Xenia by Sayre & Hemphill and leading druggists everywhere.

AT THE CORNERS.

I now recall, with deep dejection, the accident of yesterday; it happened at the intersection of Bunkum Road and Hayseed Way. Had I gone slowly, as my pastor has urged me to, a thousand times, there would have been no fierce disaster to swell the list of auto crimes. But I was sending my tin Lizzie a gait no Lizzie ought to know, and I, alas, was far too busy to scan the landscape, to and fro. And so that bus of Hiram Horner's came scorching to me all unseen, and we collided at the corners, and rolled in burning gasoline. I'm full of tin and grease and gravel, and as I sit here, sick and dour, I swear that I will never travel at more than seven miles an hour. Of course, I blame the other fellow, and say he should be pinched and tried; it is a habit, rather yellow, wherever motorists abide. And Hiram sits in silence solemn, and knows not I am telling fibs; the surgeon wired his spinal column, and put new washers on his ribs. The two poor Lizzies are so mingled, so void of a dividing line, the tinsmith says he will be jingled if he can tell me which is mine. And so, in gloomy retrospection, I think about that ghastly wreck, while surgeons make a close inspection of sundry fractures in my neck. The roads are strewn with wrecks unholy, their number never can be told; it seems that people won't drive slowly, however bitterly I scold.

the sleeve is slashed just above the wrist. The entire effect of the frock is on the whole quite tailored, so that it lends itself well to copying in every day colors. For a dark dress it provides a particularly pleasing opportunity for introducing a touch of vivid color, so smart this season.

DECIDING GAME SET FOR SATURDAY

The third and deciding game of the county championship baseball series between the Yellow Springs Athletics and Bellbrook, will be played at Yellow Springs, Saturday afternoon, starting at 2:30 o'clock. Each team has a game to its credit, and it was at first decided to play the deciding game here, but owing to the interest in local football, it was agreed to stage the final pastime in Yellow Springs. As both games were won

by large scores, much interest is attached to the deciding conflict.

Weak Kidneys and Bladder MADE STRONG

Thousands die every year from weak Kidneys and Bladder who ought to be enjoying the blessings of life. If you're subject to weak back, lack of appetite, puffy eyes, specks, disturbed sleep, cloudy urine, rheumatism, annoying bladder troubles, clammy feet or any other tendency to Bright's disease, Diabetes or Gravel, recognize them as danger signals warning you. Don't neglect them, but get Dr. Carey's Marsh-Root Prescription No. 777 (Liquid or Tablets) at Sayre & Hemphill who with every other good druggist has been authorized to return purchase price on two bottles to all who state they are not benefited.

LET US RELIEVE YOU

Why suffer with headaches while immediate and lasting relief await you here?

Statistics show that the majority of the people who suffer with headache have defective eye-sight, which if corrected by the proper lenses, would in most cases relieve them of their headaches. We examine the eyes carefully, grind the lenses and make the glasses the same day. All for one charge, a reasonable one. This is our specialty, we do nothing else.

TO-NIGHT

Like a snarling tiger cub, grown strong, that turns upon its mighty sire, so Red Pawl one day tested the iron fists of his father, the hardest skipper on all the seven seas. Soon he crawled away, beaten but uncowed, to plot another means to seize the ship and get the girl he craved. His treacherous plan went well, a knife flashed, the skipper was down and then— You will never forget the startling, crashing climax of this picture.

FORMER XENIAN TO HEAD INVESTIGATION OF MOUND BUILDERS

Whether the 68 mysterious earth-works known as the Cahokia mounds just outside of East St. Louis, Ill., were built by prehistoric Indians, will be determined by an investigation to be conducted by Prof. W. K. Moorehead, curator of the archaeological department of Phillips academy, Andover, Mass., and a former Xenian, according to the scientific notes in a recent issue of Pathfinder.

Some of the smaller mounds will be opened by the local man in his research and it is believed that the diggings will yield many relics of the ancient aborigines. The theory held by most scientists is that the Cahokia man-made hills are what is left of a once great settlement of prehistoric mound-builders.

The land on which the mounds are located is privately owned, but as it is believed the owners can not resist for much longer the appeals to buy the property for factory sites, the investigation is being undertaken by the Smithsonian Institute and the National Research Council of Washington, the Field Museum and the University of Chicago, the Peabody Museum of Cambridge and Phillips Academy, with which Prof. Moorehead is connected.

THANK OFFERING HELD BY CHURCH

The annual Thank Offering service of the Women of the West End church was held in the church building Wednesday evening.

The program was in charge of Mrs. Mary L. Collins. After prayer by the pastor, Rev. Charles P. Proudfit, scripture was read by Mrs. A. W. Jamieson. Mrs. Frank Hastings had charge of the drills by the children. These were "The Clock" by Marjorie Jenkins, Gertrude and Thelma Phillips, Clara Tracey, Florence Tracey, Glenna and Clara Randall, Bertha and Verna Vance, Dorothy Botteroff, Lucile Thompson and Harriet Tobin. Also a drill "Thank Offering" by Bertha Vance, Isabelle Jenkins, Florence Tracey, Thelma Phillips, Gwendolyn Beeler, Mildred Lewis, Cidell Thompson, Thelma Stafford, Mabel Tobin, Lucile Thompson, Clara Tracey, Harriet Tobin and Clara Randall.

Recitations were given by Mildred Lewis, Cidell Thompson, Isabelle Jenkins and Lucile Thompson and a duet by the two latter.

The principal address of the evening was given by Miss Mary Kyle who has returned from India on furlough.

After the thank offering prayer by Miss Leila Quinn the audience went in a company to the gymnasium of the church where refreshments were served under the direction of Mrs. Emma Anderson.

BOY RECOVERING FROM INJURIES MADE BY MACHINE

Charles James, nine-year old son of Mr. and Mrs. Harry James, of Jamestown, is now believed to be recovering from injuries sustained when he was knocked down and run over by a machine driven by Mrs. Arthur Jenks, in the village, Monday evening.

The boy sustained a serious cut in the forehead, that extended back through the scalp and required a number of stitches to close. It was at first believed that he might have been seriously injured when the machine passed over him, but the medical examination disclosed no broken bones, and it is believed that he escaped internal injury.

The lad was said to have been playing with a number of other boys, and without seeing the machine, ran directly into the street in front of it.

He was taken to the office of Dr. L. C. Walker, where his injuries were dressed and he was removed to his home.

BASEBALL RETURNS GIVEN FANS OVER COUNTY BY PAPERS

The second baseball party given by the Gazette and Republican Thursday, proved to be a larger affair than the first, more fans gathered in front of the scoreboard to follow the result of the second game of the big series, than did for the opening contest Wednesday.

Besides the crowd of fans who watched the board through its two-hour progress from the first game to the last, both telephones in the business office and both in the news room of the newspapers were kept busy by inquiring fans, unable to leave their places of business, but anxious to

know the progress of the World Series melee. Fans in Yellow Springs, Bowersville and other places are supplied with up-to-the-minute dope on the games by the energetic business men, who call the the scoreboard to follow the result of second game of the big series.

TEAM WORK NOT POSSIBLE BETWEEN HOUSES IS WORD

Washington, Oct. 6.—Team work between the house and senate Republican majorities is impossible, according to the legislative program of the house, announced today by Republican Leader Mondell.

Irrespective of what the senate does or fails to do, the house is going along with its legislation, certain that under its rules, and with its heavy majority vote, it can dispose of measures in record time.

The effect of this dispatch of business by the house, may prove embarrassing to the senate, where conflicting groups working at cross purposes, are holding up legislation. It is common talk among members that "the people are dissatisfied with the situa-

to be elected next fall.

President Harding is expected to intervene soon and undertake the straightening out of confused conditions within the Republican ranks in congress. Leaders have carried already their troubles to him. Both Mondell and Senator Lodge have been to the White House.

Mondell wants no longer recess between the present session and the regular session, opening December 5. The senate leaders would like congress to adjourn for the present session of the armament limitation conference before November 11, the opening conference.

ORTON'S EFFORT SHUNNED.

Washington, Oct. 7.—The department of labor has sent a negative reply to President Orton of the Columbus Chamber of Commerce, who undertook to act as aid for cupid in a romance between Peter Ronlos, Columbus restaurant proprietor, and Stantiki Roymoliataau, Greek girl, who came to this country to marry Ronlos and was held up at Ellis Island for deportation.

The marriage of Miss Edna Stormont, daughter of Mrs. Ida Stormont, and Rev. Paul Duncan, pastor of the Reformed Presbyterian Mission in Kentucky took place Wednesday evening at seven-thirty o'clock at the home of the bride's mother. The attendants were Misses Erma Creswell and Louisa Greer and Messrs. Duncan and Merle Stormont, brothers of the bride and groom.

The marriage was solemnized by Rev. W. C. Harriman pastor of the Reformed Presbyterian church. The ceremony took place in the living room, which was artistically banked with fern, forming a charming background for the wedding. Mr. Marion Stormont played the Lohengrin wedding march and Miss Helen Hiff sang "I Love You Truly."

The bride wore a charming costume of white crepe-de-chine beaded in pearls and carried a shower bouquet.

After an impressive ceremony a wedding dinner was served. The bride's table was beautifully decorated. At this table were seated the bride and groom, Mr. and Mrs. Lawrence Ferguson, Misses Erma Creswell, Mable Stormont and Louis Greer and Messrs. Merle Stormont, Gavin Reilly and Mr. Duncan of Darlington, Pa.

Rev. and Mrs. Duncan left Thursday morning for a trip to Pennsylvania after which they will make their home in Kentucky. She is a graduate of Cedarville College.

Rev. Duncan is a member of the 1921 class of Cedarville College and Seminary.

Y. M. C. A. Program for 1921-22
At a meeting Tuesday evening of the program committee of the College Y. M. C. A., subjects and leaders were selected for the entire year. Plans were also laid to have prominent business and professional men address the association once a

month on some subject of interest to young men. Among those suggested to make addresses were Mr. G. H. Harman, Dr. Ben R. McClellan, Attorney J. A. Flaney and Mr. O. E. Bradfute. Membership cards entitling the holder to visitors privileges in any Y. M. C. A. in the world were distributed at the meeting on Wednesday. Mr. Willard Kyle will lead the next meeting. Football Schedule Completed

Manager G. L. Markle of the college football team has announced the completed schedule for the season. Five inter-collegiate games will be played. The season will open with Rio Grande College on next Saturday. The remainder of the schedule is as follows, Oct. 21 Antioch College at Yellow Springs, Oct. 28 Wilmington College at Wilmington, Nov. 11, Antioch at Cedarville, and then closing the season with Defiance at Defiance on Thanksgiving Day. It is hoped that there will be another home game probably with Rio Grande.

Coach Blackburn's proteges have been receiving stiff signal and scrimmage practice daily for the past two weeks and will go to Rio Grande Saturday full of scrap and confidence in their ability to put across an easy victory. Sixteen men will make the trip in addition to the coach and referee.

At the practice Monday evening Lawrence (Bill) Riddell was elected captain of the squad. Captain Riddell has had three years experience with Xenia High on the gridiron and the fellows have splendid confidence in his ability as a football general.

To Make Rich Red Blood

Revitalize your worn-out exhausted nerves and increase your strength and endurance
Take Organic Iron; not metallic iron which people usually take, but pure organic iron—Nuxated Iron—which is like the iron in your blood and like the iron in spinach, lentils and apples. One dose of Nuxated Iron is estimated to be approximately equivalent (in organic iron content) to eating one-half quart of spinach, one quart of green vegetables or half a dozen apples. It is like taking extract of beef instead of eating pounds of meat. Nuxated Iron is partially predigested and ready for almost immediate absorption and assimilation by the blood, while metallic iron is iron just as it comes from the action of strong acids on small pieces of iron filings.

Over 4,000,000 people annually are using Nuxated Iron. It will not injure the teeth nor disturb the stomach. A few doses will often commence to enrich your blood. Your money will be refunded by the manufacturer if you do not obtain satisfactory results.

Beware of substitutes. Always insist on having genuine organic iron—Nuxated Iron. Look for the letters N. I. on every label. Sold by all druggists.

Re-modeling of Alford Memorial Planned

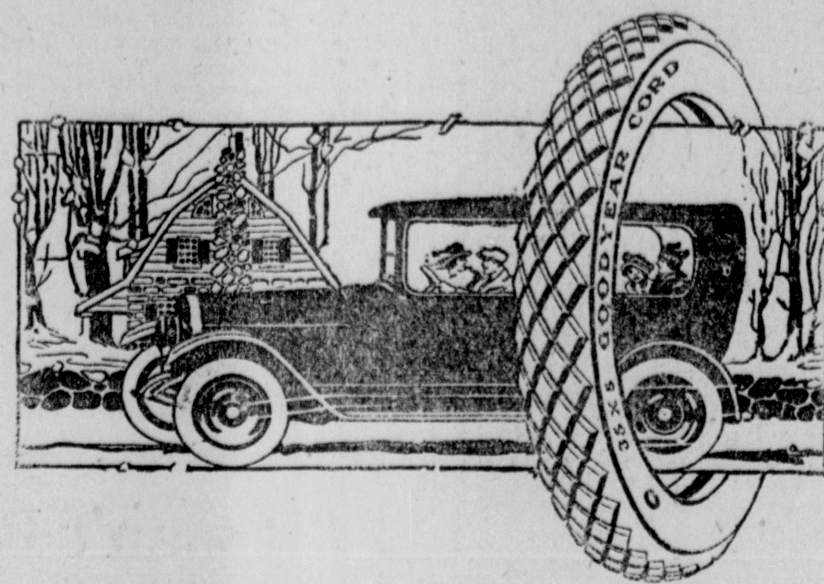

Plans for the remodeling into a science hall, the Alford Memorial building, given to the college in memory of his father by Wm. J. Alford are well under way.

The building when completed will contain lecture rooms and laboratories for chemistry, biology and physics and a biological propagation room. The building is at present being used as a gymnasium. A temporary gymnasium will be built to serve the purpose of athletic headquarters until the time when a modern building can be erected to house

the department of physical education.

The Alford Memorial building was originally the Reformed Presbyterian (New School) church. It was built in 1855 and used as a place of worship until the present church was built. It was then bought by Mr. Alford and given to the college for use as a gymnasium.

On Tuesday evening the girls of the college enjoyed a delightful spread at the home of Miss Florence Smith. After enjoying a light lunch the evening was spent in music and games. The party broke up at a late hour. The boys were greatly surprised the next morning to find that the girls could actually keep a secret and could enjoy themselves without their presence.

BIG CELEBRATION NOW IS PLANNED FOR JAMESTOWN

Three brass bands, an ox roast, and a regular old time hobgoblin jamboree n' everything, is the promise of the Jamestown Improvement Association for the Hollowe'en celebration in the village.

Plans of the association call for an all-day affair, with plenty of field events and contests for the daylight hours and the three bands furnishing music. Prizes will be offered for the contests and also for the masqueraders who are expected to swarm the streets at night.

Members of the Improvement Association are planning to advertise the big day in the village with an automobile "run-around" preceding it, when people all over the county will be invited to participate in the celebration. Members are announcing that everything, including the ox roast, will be free.

East End News

At the call of Dr. Hawkins, a number of men met at the residence of Rev. P. A. Nichols, Thursday night and organized the East End Association, with Mr. W. M. Rogers as president.

The object of the Association is, according to the Preamble to the constitution, is "to protect and promote the moral, social, civil, political and economic interests of the colored citizen of the city, and in all the ways possible, encourage the maintenance of the present friendly feeling existing between the races."

The Association will hold meetings the fourth Thursday in each month at such a place as may be designated by the president. A membership fee of one dollar will be charged, and it is hoped that at the next meeting a goodly number will be present so the list of officers may be completed.

Sunday is Dollar Monye Day at St. John. It is hoped that all the members will pay their dollar as the pastor will leave for conference on the 19th.

Clifford Green, East Main Street, left for Chicago, Thursday, where he has a position in the postal service.

Mr. and Mrs. Leon Harris of Galgaria, Canada, are guests of their parents, Mr. and Mrs. Fred Harris, East Third Street.

Miss Minner, a young teacher in the House of Reform, Lexington, Ky., is the guest of Prof. and Mrs. E. L. Harris, East Main Street for two weeks.

Mrs. Flossie Allen and little daughter, Albert Elane, of Springfield, who were guests of her mother Mrs. Francis Booker and her sisters Mrs. Howard and Mrs. Washington returned home after a pleasant visit.

Mrs. Elizabeth Bowen, East Main Street, who is on the sick list this week is somewhat improved.

CELEBRATES SEVENTH ANNIVERSARY OF THE MARNE.

France celebrated at Meaux, the seventh anniversary of the first victory of the Marne. The little town of the Department of the Seine-et-Marne was gayly decorated with flags for the double ceremony—for

Today's Talk by George Matthew Adams

DUSK.

I believe that most of us love the soft shadows—those which are not too heavily accented. Like the softer and more mellow notes in music.

The soul has nothing of harshness to it. Rather it is filled with the qualities of sublimity—in fact set quite apart from all that has anything of discord or disturbance to it.

Like the finest ring or ornament set with the purest diamonds, so does the soul reflect beauty.

To dusk comes all the finer elements of the day—to intermingle, as a happy family may at the close of the working hours.

The sun is creeping into its bed chamber, wrapped in its most gorgeous garments. The breezes of noon-time, warmed by the sun, become cooled and almost still. The farmer has housed his herds and horses for the night, and with an honest tiredness, feels his way to a happy rest.

Weariness and feet relax. Minds busy with the thought of a thousand enterprises, become light and seek rest and recreation in pleasant talk.

What is rarer than a perfect dusk? What peaceful quiet, and what comfort. What a time in which to hear the pin-drops of loveliness out of a world of sordidness and grasp for selfish gain.

It is at the sign of dusk that the flowers bend their heads and close their eyes from the dew of darkness. When they throw their wraps about their perfume vials—conserving them

for the distributing power of the wind and Sun of unborn days.

At dusk, I believe that we will all feel most alone—and lonely. Yet comforted most by the remembered loves of the days that have gone.

We come most to ourselves at dusk. It is a period of self examination and review.

No finer time in which to forgive and forget—then at dusk. No more fitter time in which to bathe and cleanse the heart.

BELIEVE CLEARING UP OF THEFT NEAR

With the arrest of Zeffie Camp, Thursday, Wilmington authorities believe they have all four of the men behind the bars, who were implicated in the theft of 29 chickens from the roost of Charles LaFollette, near Clarksville, the first week in August and sold in this city.

Charles and Wilbur Daugherty and Harry Michael are being held in the Wilmington jail on similar charges, having been bound over to the grand jury on specific charges of burglary and larceny. Charles Daugherty and Michael were shot in the back when attempting to escape with the poultry and are still suffering from the gunshot wounds.

Big Audience at Opera House Hears Elizabeth Spencer in EDISON Tone-Test

In a test of direct comparison, made Thursday at the Opera House, before a large audience the New Edison scored a complete and convincing triumph.

Elizabeth Spencer, the famous soprano, sang in direct comparison with the RE-CREATION of her voice by the New Edison. To every ear, there was no difference between her living voice and her RE-CREATED voice.

This is the most drastic phonograph test known. No other phonograph has ever sustained it. No other phonograph has even attempted it.

The New Edison's marvelous performance of yesterday vindicates everything that has been said or claimed for its perfect realism.

Elizabeth Spencer stood on the stage next to a shapely Chippendale cabinet. She began to sing. Her golden notes soared over the auditorium, bringing all under its magic spell.

Halfway through her song she suddenly

stopped singing. The New Edison, at her side, took up her song—and continued it alone.

Singer and phonograph thus alternated, throughout the song.

The only way the audience could be sure which was singing, was by watching Miss Spencer's lips—so exactly like the living voice was the RE-CREATED voice.

Emil Bertl made the same test of comparison with the RE-REATIONS of his piano selections. Again the same result—there was no difference between the RE-CREATED performance and the living performance.

Proof was piled upon proof! Evidence was massed on evidence! The end of the concert found the audience absolutely and completely convinced, through its own personal experience, that there is no difference between an artist's living performance and its RE-CREATION by the New Edison—that listening to the New Edison is, in literal truth, the same as listening to the living artists.

The NEW EDISON "The Phonograph with a Soul"

Only one question can still bother your mind. This question we now answer.

The instrument used in yesterday's tests was not a special model. It was an Official Laboratory Model, belonging to Mr. H. C. Fenker of Jamestown, and has been in use for over a year. Every Official Laboratory Model in our stock is guaranteed to sustain the same test of direct comparison with living artists.

You can have an Official Laboratory Model in your home. You can own an instrument which will do everything done yesterday in the test. Come in. Hear the wonderful Official Laboratory Model for yourself. Learn about our Budget Plan, which puts our Official Laboratory Model into your home for no more than you would "pay down" for a talking machine.

WITH FROST ON THE PUMPKIN FARMERS OF COUNTY ARE TURNING ATTENTION TO ACTIVITIES OF FARM BUREAU

With the frost on the pumpkin, and the fodder in the shock, things are moving quietly in farm bureau circles, and plans are being made for an interesting winter schedule.

Two new departments are being planned for the bureau, which will be developed throughout the county during the winter months. A second-year Boys and Girls Club, is one of the new departments which is now gaining the attention of the workers in the bureau.

The work of the new club will be an advancement of the program of the other organized clubs, including the Boys' and Girls' Pig Club, and Boys' and Girls' Canning Club.

The work for the second year Poultry Clubs, will be experimenting with try Clubs, will be experimenting with and a litter of pigs will gain the attention of the members of the Pig Clubs of the county. The art of canning in the more difficult stages will be taken up by the Canning Clubs.

Gov. Dowdy, of Columbus, will be in this city October 15, and will call upon County Agent Ford S. Prince in connection with work in the Clubs.

One of the most interesting departments in the home projects of the Farm Bureau, is the instructions in dress making among farm women. During the past several weeks, lessons have been given the women in making dress forms, for use in making their own clothes.

OHIO RANKS FIRST IN MODERN SERVICE

Ohio ranks among the first in the country in the number of farms that have gas or electric service. The number is 452,809 or seven per cent of all the farms in the United States.

Only Iowa, Illinois, and Missouri exceed Ohio in the number of farms having telephones. The number is 159,478 more than half the farms in the state.

Records of the utilities commission also show there are in Ohio 933,011 customers of natural gas companies, 785,755 telephone subscribers, 602,618 customers of electric light and power companies and 9,250 users of artificial gas.

HE'S HAVING A GOOD TIME

Pete Bellnoe's idea of having a good time is to spend the afternoon washing the ferry clock's face. Not many people have had the honor of shaking hands with this mammoth time-piece. Big crowds gathered in front of the ferry building and breathlessly watched his antics, for, not content

with climbing all over the surface of the dial while cleaning it, he began to do stunts, such as hanging by a rope, head downward, and making his circuit of the outside of the clock suspended by his hands and in general conducting himself like a human fly. The clock is on the tower of the Union Ferry building, San Francisco.

FARMERS SOWING SEED WHEAT NOW IN GREENE COUNTY

By suggestion from farm bureau experts, farmers are now sowing their seed wheat, October 1, being set as the date for the first planting, in order to avoid the Hessian fly.

County Agent Ford S. Prince is announcing a treatment for seed wheat for the benefit of the farmers of the county. The treatment is as follows: Add one pint of formaldehyde to 30 gallons of water, for a treatment of from 40 to 50 bushels of wheat.

Spread the grain in a layer of 6 inches deep on a clean floor or wagon surface, and sprinkle with the solution, from a sprinkling can. Shovel and mix and sprinkle again until the seed is all moist.

Pile up the grain, sprinkle sacks in which the grain is to be moved to the field, with the formaldehyde solution, and spread them in on the pile. Leave the shovel in the pile. Treat the drill.

Cover the pile with clean canvass or blankets, for two hours. Then spread it out in a thin layer to dry. Sow the grain as soon as it is dry enough to run freely through the drill. Set the drill to sow at a higher rate, in order to allow for swelling of the grain.

If wheat is badly smutted do not use it for seed.

A new method that is being tried out, and found to be satisfactory according to Mr. Prince, is a solution of one pint of formaldehyde to a pint of water, and sprinkle it over the grain. This treatment is quicker, and obtains as good results.

COUNTY TO BE WELL REPRESENTED SOON AT TEACHERS' MEET

Greene County will be well represented at the Southwestern Ohio Teachers' Association Convention, to be held at Cincinnati, October 28-29. County Superintendent H. C. Aultman, is president of the Association, which numbers several thousand members. D. H. Barnes is president of the county teachers' section, and Miss Jean B. Elwell, of the Xenia High School is president of the section of English teachers. Miss Letitia Dillen court, of Beavercreek High School is on the program, for an address before the English section.

Many of the schools of the county will be closed for the day October 28, to enable teachers to attend the convention.

COURT NEWS

GUARDIAN IS APPOINTED

In the case of Thomas Enoch against Freddie King and others, W. S. Rogers was appointed guardian of Freddie King, Henry King and Francis King, all minors. In partitioning the estate, the court decreed that the plaintiff is entitled to 15-16 and Freddie, Henry and Francis King to 1-48 each. H. P. Howard, R. E. Holmes and David Brown, were named commissioners to arrange the partition.

SUES LOCAL COMPANY

Max M. Gugheheim and Maurice H. Shott, doing business as the Southern Food Products Company, are plaintiffs in an action against The Fuller Company, to collect \$200 alleged due on a promissory note dated December 24, 1920, and bearing seven per cent interest, and \$20 alleged due on account for merchandise sold the defendants.

PROPERTY IS ORDERED SOLD

The duly appointed commissioners have appraised the premises involved in the partition case of Walter Wike against William Wike, and others, at \$2,100, and the court orders the property sold at public auction.

CASE IS DISMISSED

The case of Lewis Pennewit against D. F. Leavell has been dismissed without record in Common Pleas Court, at the motion of the plaintiff.

DISCHARGES ARE ORDERED

The following defendants have been ordered discharged from the Sheriff, no indictments having been returned against them: State of Ohio against Joe Gieski; State of Ohio against Joseph Valerio; State of Ohio against Rosa Bitzow; State of Ohio against William Schung.

In the case of the State of Ohio against Zora Summers, the defendant pleaded guilty in a lower court to petit larceny, and no indictment was returned.

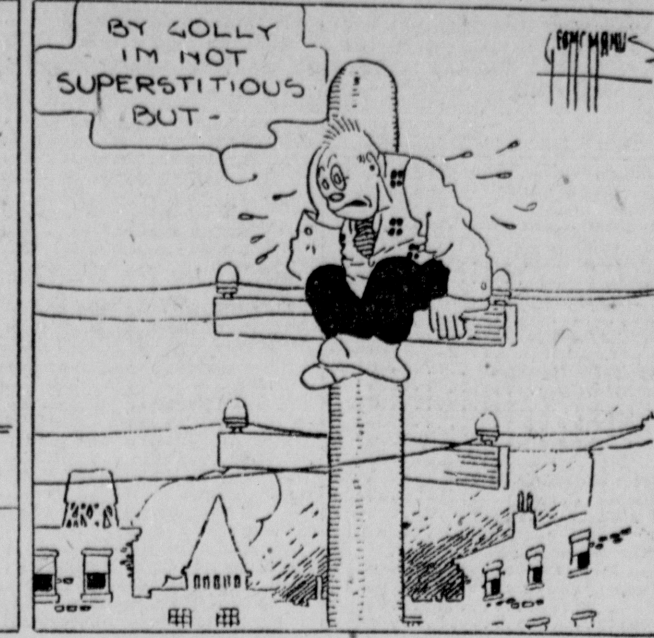

NO INHERITANCE TAX PAYABLE

No inheritance tax is payable on the estate of William F. Drake, according to a journal entry in Probate Court. The gross value of the estate was \$3,000, the debts and costs of administration \$2,000 and the net value \$1,000. The widow, Malissa C. Drake, takes a life estate and Grace Drake Hubbell, J. E. Drake and Carl B. Drake, one fourth interest in the remainder. Dorothy Drake and Ruth E. Drake will each receive one eighth of the remainder, and as the exemptions are all in excess of each legacy there is no tax collectable.

Additional Jurors Drawn

Eight new petit jurors have been drawn for the October term by Clerk of Courts Elam. More jurors were necessary because several of those drawn originally have been excused by the court. The new jurors are to report October 11, at nine o'clock in the morning. They are R. E. Bryson,

MORE ANSWERED LETTERS

Entertainer: "I suppose you will think I am a little too previous, but I want to give a Halloween party this year and thought I would not wait till the last minute to ask you for help. Is there any way that I could use my attic in such a party? I would like some unusual feature."

Answer: You are not a bit too early to ask questions about Halloween. I only wish all of my readers who desire such help would write this early. When a reader wishes an answer from me for some timely event, she should allow four weeks to be on the safe side—for, remember, I receive a great many letters and they must be answered in the order of their arrival. I would make your attic into a "Haunted House." Have it dimly lit with pumpkin heads and have a sheet stretched across one corner; behind this sheet have a person dressed in sheet and pillow case for a Ghost. This ghost will tell each guest's fortune in turn. The fortunes should be brief and cheerful, such as: "You will receive a letter containing good news." "You are on the verge of success." "You are soon to be married." Make them up to suit your self—and to fit the guests.

Typical Housewife: "Can you give me a remedy for roaches?"

Answer: Plaster of paris and flour mixed to a paste with water is one method of extermination; the paste is put in a saucer and near it is placed another saucer containing water. The roaches eat the plaster of paris paste, then go for the water and die.

Bride: "My kitchen is infested with ants. What shall I do?"

Answer: Soak a sponge in sugar-and-water and place it in a part of the kitchen through which you think the ants enter. The insects will become entangled in the sponge and can be killed by pouring boiling water over it. Often the number killed in this way is so large that the other ants forsake the dwelling.

Mrs. D.: "Kindly give me a recipe for Picallilli and tell me how to pol-

ish the nickel plate on my stove." Answer: Send stamped self-addressed envelope for my printed article entitled "What Every Preserver Closet Should Have." This paper includes Picallilli in its recipes. Nickel can usually be kept bright with hot soapy water, but when it becomes discolored it can be polished by rubbing with a paste of whiting or any fine scourer.

Constant Reader: "What will take paint off linoleum? Also what will take an ice cream stain out of a light blue satin dress?"

Answer: Remove the paint spots with either naphtha, turpentine, benzine or chloroform. These are all dangerous fluids—the three former if used near heat or flame, and the last-named if inhaled—so care must be taken in handling them. Ice cream has more or less grease in it (if the cream is rich) and this must be removed by soaking in cold water with borax sprinkled on the spot, then washing in soapy water or pouring hot water through it. The spots ought to disappear with this treatment. Experiment with a sample of the satin before submitting the dress to this treatment. That is, put a little cream on a sample, let dry, then soak, wash in cold soapy water, and let dry. If the color of the sample is unchanged, you can safely go ahead with the spots on the dress.

TAFT GRANDFATHER

New Haven, Conn., Oct. 7.—A daughter was born to Mr. and Mrs. Frederick J. Manning yesterday and Chief Justice William Howard Taft again is a grandfather.

Mrs. Manning was Helen Taft, and prior to her marriage she was president of Bryn Mawr. Mr. Manning is an instructor in Yale College.

Chief Justice Taft's other granddaughter is the child of Mr. and Mrs. Charles P. Taft II.

THE NEW GENERATION

By Jane Phelps

CHAPTER 57.

Now Margaret suddenly began to feel a great longing to know how Joan would take her revolt from her former life. Letters were frequent, but of late Margaret had imagined Joan's more surface letters: that she was keeping back anything vital that was happening to her.

"I believe I shall let her know I am in New York," she said to herself over and over as well as repeating the same thing to Hannah and Mrs. Walters.

Mrs. Walters said: "You must use your own judgment. I should think you would feel absolutely free to do as you pleased regardless of Joan. I have always felt that you should. I can't understand why her attitude should make the slightest difference to you."

Hannah said: "I expect the poor child hasn't had half enough to eat since she's been in that school. I wish you would have her come here and let me cook for her a spell."

"I believe I will, Hannah!" Margaret answered, recalling how Joan had clung to her, had offered, almost begged to be allowed to stay at home and travel as mother had wanted to do.

"You look lovely!" Forrester said an hour later when he called.

"Do I?" Margaret smiled serenely, but the color rose in her cheeks. "I'm glad. Although I expect you think me outrageous."

"Not a bit! Why should I?" "Oh, I am so different from what I was at home—when you first met me. So different than Mrs. Thompson, Mrs. Freeman, and the rest of the town folks think me."

Craig reached over and patted her hand. "And so infinitely more attractive," he said, smiling at her. "I love you," he added simply.

"Do you know that I am almost 37 years old?" she asked severely, "and have a grown daughter?"

"And do you know that I am 45, and wish I too had a grown daughter? In fact am willing to father yours."

"I sometimes wish I were of the new

generation who take things so 'casually,' Margaret mused aloud. Her thoughts were on what Forrester had said: his, "I love you," had meant nothing to him, should mean nothing to her. It was simply an expression of admiration. If it had been anything more he would have said something about marriage.

"But why?" I don't mind being of the older generation. In fact I enjoy it. Think how we appreciate the times we are passing through now, an appreciation impossible to those born to them."

"They went to the theater after dinner. Margaret told him she was intending to let Joan know she was in town."

"It's time!" he said laconically.

"Why?" "False pretenses. Then I have seen enough of you when with Joan to know you will never be really happy and at ease until she knows—and either approves or disapproves what you have done."

"You've guessed it. I feel sure she will disapprove, and perhaps am anxious to have it over."

Joan's last letter reposed "in her handbag. She drew it out and read snatches of it to Forrester:

"I wonder what you do with yourself, Mumsie? Now I am away you must find time hangs often. I guess I kept you pretty busy when I was at home. . . . Martha Hardy is to make a speech in a big hall tomorrow night. Her subject is 'The Rights of the Working Man.' I shall go and hear her, although I think if one really works they get all their rights—sooner or later. Martha and I have some pretty hot arguments. I have been to luncheon with a new man twice this week, Dean Tennant. He is a queer chap but so interesting. I wish he would wear better linen. But I notice that men with ideas have little time or thought—and, perhaps, money, to spent on non-essentials. I am going out with him tomorrow night, down to the Purple Pup for dinner. I always eat before I go to those places, so I have only to

listen to the conversation. It is always interesting."

"You see I must let her know I am in New York," Margaret said as she put the letter away.

FIREMAN HAS THRILLING TIME

Experience At Cincinnati Is Described By Well Known Flame Fighter.

Charles A. Duveneck, of 313 East Twelfth Street, Covington, Ky., city fireman, has led a life filled with thrills during his long service as a flame fighter.

But Mr. Duveneck says the greatest thrill he ever experienced as a fireman can not compare with the thrill that passed over him when he realized recently that Peppen was relieving his indigestion.

"One can feel the effect of Peppen upon the system—can quickly notice relief from indigestion after taking this medicine," says Mr. Duveneck.

"I suffered with indigestion for about four months. During that time I took a great many medicines but none of them helped me."

"One day, when I was in a drug store, one of the clerks said, 'Why don't you try Peppen. I believe it would help you.' On this clerk's advice I started taking Peppen."

"It's a fact that Peppen was just what I needed. Peppen not only relieved me of indigestion but put my system in good condition."

"I know Peppen is the best medicine I ever tried and I hope others who are troubled as I was, will try it."

Peppen is a natural medicine, made from roots, barks and herbs. It is specially intended to relieve the common ailments of the day such as ills of the stomach, liver kidneys and nerves. Try Peppen.

Peppen is now being specially introduced at Sayre & Hemphill.
